PROFILE

Informatics student at Universitas AMIKOM Yogyakarta focused on data analysis and visualization. Experienced in handling data across the full workflow — from data wrangling and exploratory data analysis (EDA) to presenting it as visualizations and interactive dashboards using Python, SQL, and Streamlit. Backed by competency certifications in data analysis, data visualization, and statistics, and enthusiastic about turning data into insights that support decision-making.

SKILLS

Data Analysis & Visualization: Exploratory Data Analysis (EDA), Data Wrangling, Descriptive Statistics, Data Preprocessing, Data Visualization, Interactive Dashboards (Streamlit)

Languages & Tools: Python (Pandas, NumPy), SQL, Google Sheets / Spreadsheets, Git/GitHub

Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation, TensorFlow

Other: HTML/CSS, Laravel, Bootstrap, UI/UX, Adobe Illustrator & Photoshop

Soft Skills: Teamwork, Time Management, Leadership, Responsibility

PROJECTS

AI Waste Classification

May 2026 – Present

Personal Project · portofoliochrisnawan.vercel.app ↗

- Performed data preprocessing, feature engineering, and model evaluation using a confusion matrix and classification metrics.
- Developed an interactive Streamlit dashboard to present predictions and visualizations in real time.
- Built a waste classification model using TensorFlow and a Convolutional Neural Network (CNN).
- Integrated the model into the application to improve the efficiency and accuracy of waste sorting.

COMPETENCY CERTIFICATIONS

DICODING INDONESIA

Fundamentals of Data Analysis	Apr 2026
Introduction to Data Science	Feb 2026
Introduction to Data Visualization	Feb 2026
Mathematics for Data Science	Mar 2026
Machine Learning for Beginners	Mar 2026
Getting Started with Python Programming	Feb 2026
Introduction to Git with GitHub	Feb 2026
Getting Started with Programming to Become a Software Developer	Feb 2026
Introduction to Programming Logic (Programming Logic 101)	Feb 2026

ADDITIONAL TRAINING

Ethical Hacking & Cyber Security (Pentester / White Hat)	Oct 2023
Creating Illustrations with Adobe Illustrator	Nov 2023

EDUCATION

Universitas AMIKOM Yogyakarta

2023 – Present

B.Sc. in Informatics

SMK Penerbangan AAG Adisutjipto

2019 – 2022

Yogyakarta

SEMINARS & ACTIVITIES

Stress Management in Career Development Seminar — AMIKOM	Oct 2025
HMIF Industry Visit — NTT Data Business Solutions & Exabytes	May 2025
Kuliah Kerja Ngoding (KKN) Webinar — Geek Academy × Devcode	Jan 2024
Introduction to Computer (ITC) 2023 — AMIKOM	Aug 2023
New Student General Lecture — AMIKOM	Aug 2023
